

EDI: First Lab Report

Aiman Al Masoud - 502044

April 17, 2022

Abstract

The goal of this work was to determine the average daily peak time of a server, using an active monitoring technique (traceroute).

1 Insert the title of your first lab

1.1 Methodology and experimental setup

1.2 Experimental results

2 Insert the title of your second lab

2.1 Methodology and experimental setup

2.2 Experimental results

3 Conclusion

$\frac{X}{Y}$
